

Benefis Health System

We are committed to being the best health system in Montana, and it shows. Benefis has received various awards from leading rating organizations, and we surpass national standards in areas such as coronary procedures, stroke care, and pulmonary care, according to Healthgrades.

Mission

We provide excellent care for all, healing body, mind, and spirit.

Vision

To be the best health system in Montana.

Values

We are guided by these values:

- Quality and Safety
- Cost Effectiveness and Efficiency
- Respect and Compassion
- Service and Stewardship
- Leadership and Teamwork
- Integrity

Awards and Recognitions

This is your opportunity to join one of Montana's most modern and progressive health systems. Our state-of-the-art facilities and cutting-edge technologies make Benefis an exceptional working environment. Our pharmacy has drawn national attention with a recent resident receiving the Rising Star Vigi Award. In addition, Becker's Hospital Review rated us as one of the 150 Top Places to Work in Healthcare for six consecutive years, starting in 2014. In 2019, Forbes recognized Benefis Health System in its ranking of America's Best Employers. In 2021, Benefis was the only hospital in the region named to Forbes' Best-In-State Employers list.

Purpose Statement

The Benefis PGY-1 residency program is a 12-month postgraduate training program that will provide training opportunities in **acute care, ambulatory care, clinical services, and pharmacy leadership** with an emphasis on **rural health care**. The program offers residents substantial flexibility in developing a residency schedule that helps to explore their area(s) of interest. At the end of the residency, our goal is for residents to have the skills to **confidently practice clinical pharmacy and be leaders among their peers**.

Outcomes

1. Providing skilled, patient-centered pharmaceutical care to multiple patient populations.
2. Development of effective communication as a part of the healthcare team.
3. Improvement of safety efforts through evaluation of medication systems.
4. Providing effective education to students, patients, and other healthcare workers.
5. Development of marketable job skills.
